

EXPORT CONTROLS PROCEDURES

Title: SIUC Property Control		
Procedure #: EC08.		Todd Wakeland

Purpose/Definitions: In order to clearly identify export controlled equipment, the Export Controls Office shall coordinate with Property Control to flag export controlled equipment.

Procedure:

When the Export Controls Office identifies equipment that is export controlled, Export Controls staff shall notify Property Control. Property Control staff shall then add "Export Control" to the description field for that equipment. This description will show up in
